5. [REDACTED] JGO) Met with James Kronfeld, Staff Counsel, and William Phillips, Staff Director, Subcommittee on Foreign Operations and Government Operations, House Committee on Government Operations, and discussed with them briefly the Freedom of Information bill provisions and the handling of the transcripts of Harold Brownman, DDM&S, testimony before the Subcommittee of 5 June 1974. It is planned to meet later in the week for a more detailed discussion of the Freedom of Information provisions. As for the transcripts, Phillips indicated that we should be receiving the transcripts of the open hearing during the week. After we have had time to review it and make corrections, we can sit down together and review both the open and Executive session transcripts. Since he (Phillips) will be tied up on other matters during the next week to ten days, he expects that it will be at least that long before he will have time to meet on the transcripts.

Separately he gave me a copy of the Chairman's letter that will be dated today requesting Agency witnesses on H. R. 12004, a bill to codify classification of material. This bill is the latest in a series of drafts developed over the last 18 months or so and it is one that Chairman William S. Moorhead, (D., Pa.), has given more time than anything else within the Committee's jurisdiction. He asked that we note particularly at page 10 of the bill, special consideration is intended for Sources and Methods information.

Later in the day, Chairman Lucien Nedzi, House Committee on Armed Services, asked if we would ascertain whether the Agency was ever apprised of delivery of the Ellsberg documents to the Soviet Union. See Memorandum for the Record.
